

Community  
Input Event

FRIENDS OF  
THE SANTA CLARA RIVER

---

**HOW DO WE KEEP OUR WATER SAFE?  
WILL WE HAVE ENOUGH?**

---

Share Your Ideas. Share Your Needs.

---

California will spend billions to make sure that everyone has enough clean, safe water.

Make sure our tax dollars help us and our families.

**Come to our meeting.**

Be informed. Participate.

**Our voices count – let's use them!**

---

HOSTED BY:

FRIENDS OF  
THE SANTA CLARA RIVER

**El Rio & Nyeland Acres**

**Thursday, October 22<sup>nd</sup>, 2020**

**Time: 7-9pm**

**Location: Online via Zoom**

**It's our water.**

WaterTalks@csusb.edu

**WaterTalks** is a public program designed to generate and increase community involvement in planning a sustainable water future for California. Its goal is to explore the strengths and opportunities of 128 communities in the Los Angeles and Ventura counties facing ongoing economic and environmental distress, and gather input to prioritize and recommend water-related projects based on issues of greatest concern.

**WaterTalks** aims to ensure that regional water resource management considers the health, safety, welfare, and resiliency of lower-income community members. To do so, WaterTalks is providing a series of community forum meetings for the benefit of local residents to raise questions and concerns about their water-related issues, provide crucial input regarding their community's water needs, and to learn about the State's most current water related topics. These include drinking water, water conservation, flood management, drainage, vector control, access to parks and recreation, and the overall health of our watersheds.

**WaterTalks** is funded through the California Department of Water Resources. In 2014, voters approved "The Water Quality, Supply, and Infrastructure Improvement Act" – Proposition 1 – to meet the State's long-term water needs. Proposition 1 funds an array of sustainable water-related projects, including drinking water protection, public water system improvements, water recycling, wastewater treatment, drought relief, emergency water supply management, and watershed protection.

**WaterTalks** collaborates with numerous community based organizations to host local community meetings and events. Participation in a WaterTalks Community Input Meeting will help ensure your needs, concerns, questions, and insights become part of the State's future water projects.

To participate in WaterTalks, please check the schedule of meeting dates and locations on the WaterTalks website: [www.watertalks.csusb.edu](http://www.watertalks.csusb.edu)

## About Our Host

FRIENDS OF  
THE SANTA CLARA RIVER

**Friends of the Santa Clara River is a 501 (c)(3) public interest organization formed in 1993. Our mission is to protect and preserve the cultural and biological resources of the Santa Clara River Watershed. Since its inception, Friends has concentrated on protection of the Santa Clara River through advocacy, education, and conservation in both Ventura and Los Angeles counties.**
