

Community Input Event

Greater Los Angeles County
Integrated Regional Water Management
Leadership Committee

HOW DO WE KEEP OUR WATER SAFE? WILL WE HAVE ENOUGH?

Share Your Ideas. Share Your Needs.

California will spend billions to make sure that everyone has enough clean, safe water.

Make sure our tax dollars help us and our families.

Come to our meeting.

Be informed. Participate.

Our voices count – let's use them!

HOSTED BY:

COLLEGE OF THE
Canyons
The Promise of Opportunity. Since 1969.

Time: Sat, Nov. 7th at 4:00-6:00 pm

It's our water.

WaterTalks@csusb.edu

WaterTalks is a public program designed to generate and increase community involvement in planning a sustainable water future for California. Its goal is to explore the strengths and opportunities of 128 communities in the Los Angeles and Ventura counties facing ongoing economic and environmental distress, and gather input to prioritize and recommend water-related projects based on issues of greatest concern.

WaterTalks aims to ensure that regional water resource management considers the health, safety, welfare, and resiliency of lower-income community members. To do so, WaterTalks is providing a series of community forum meetings for the benefit of local residents to raise questions and concerns about their water-related issues, provide crucial input regarding their community's water needs, and to learn about the State's most current water related topics. These include drinking water, water conservation, flood management, drainage, vector control, access to parks and recreation, and the overall health of our watersheds.

WaterTalks is funded through the California Department of Water Resources. In 2014, voters approved "The Water Quality, Supply, and Infrastructure Improvement Act" – Proposition 1 – to meet the State's long-term water needs. Proposition 1 funds an array of sustainable water-related projects, including drinking water protection, public water system improvements, water recycling, wastewater treatment, drought relief, emergency water supply management, and watershed protection.

WaterTalks collaborates with numerous community based organizations to host local community meetings and events. Participation in a WaterTalks Community Input Meeting will help ensure your needs, concerns, questions, and insights become part of the State's future water projects.

To participate in WaterTalks, please check the schedule of meeting dates and locations on the WaterTalks website: www.watertalks.csusb.edu

About Our Host

College of the Canyons plays an increasingly vital role in the Santa Clarita Valley, whose diverse population relies on its relevant, cutting-edge academic and workforce-training programs. Business and industry depend on the many training, economic development and business-assistance initiatives, and partnerships with numerous organizations, governmental agencies and educational institutions contribute to the community's strength and vitality.
